PAI CONSULTANT INC

Construction

We develop civil works in all construction stages for infrastructures such as

Construction

We undertake civil works in all construction stages for infrastructure such as:

- Schools
- Housing
- Parks
- Sports Centers
- Hospitals and Clinics
- Sidewalks, footpaths and streets
- We supply industrial equipment, tools, and supplies

Potable water and sanitation

*We provide tailor-made solutions in design, construction,
implementation, operation, and maintenance of:*

- Fixed and mobile water treatment plants
- Desalination plants
- Wastewater treatment
- Sanitation systems
- Consultancies

PAICO
PAI CONSULTANT INC

Energy

We design, implement, and operate in this sector.

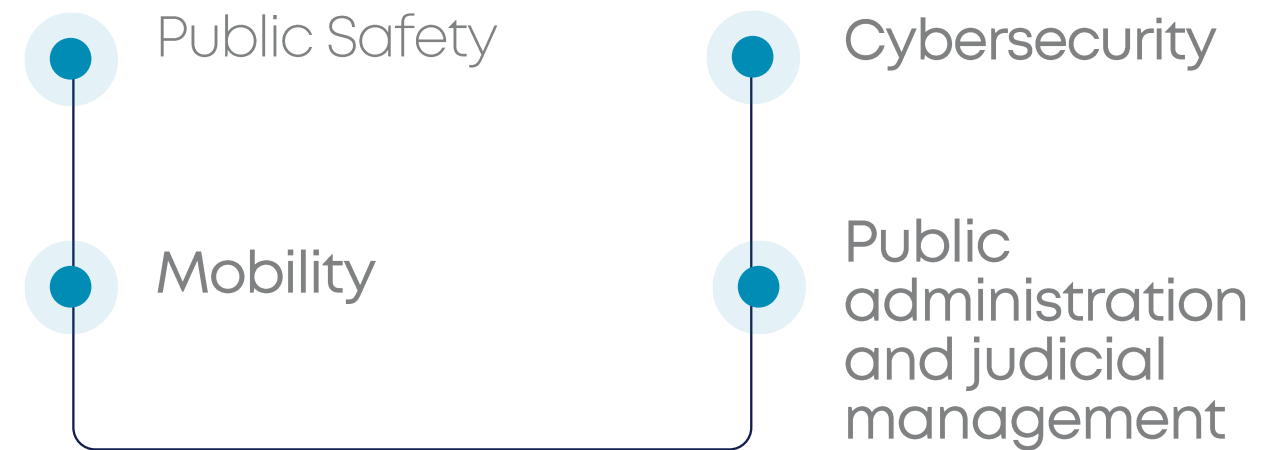

- Energy storage systems
 - Efficient lighting
 - Consultancies
- Stations and substations at various scales with different clean energy generation systems for communities in remote locations.

PAI CONSULTANT INC

Transformative Technologies

We develop and apply digital transformation and technological innovation to all kinds of processes, making them intelligent with software, hardware, and applied artificial intelligence in:

Smart Mobility

Transformative Technologies

We integrate advanced technologies and innovative strategies to improve efficiency, safety, sustainability, and user experience in transportation systems, with the aim of creating more connected, accessible, and livable cities.

- System integration and maintenance for mass and individual transportation
- Intelligent systems and road safety
- Technologies for tolls and access control
- Digitization and automation of port operations
- Infrastructure for electric and green fleets
- Transport consulting and engineering

Smart public
Administration
Transfromative Technologies

We strategically integrate advanced technologies and innovative methodologies to efficiently manage the technological resources of an organization or entity.

We modernize, automate, and manage portfolio collection processes.

We diagnose and implement Enterprise Resource Planning (ERP) software for public entities.

We digitize and safeguard institutional archives in the cloud.

Smart Judicial Management

Transformative Technologies

We integrate innovative technologies and strategies to enhance the provision of services by government institutions, improving their efficiency, transparency, and citizen participation.

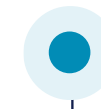

- We design and implement modern judicial management systems.
- Virtual courtrooms
- Equipment with digitization systems, transcription, and specialized indexing

Smart Citizen Security

Transformative Technologies

We offer advanced solutions to enhance crime prevention, citizen protection, and efficient response to emergency situations, promoting citizen participation while respecting civil rights and individual privacy.

Urban video surveillance systems

We implement Police Command, Control, Communications, and Computing Centers (C4).

Emergency response systems 911 and firefighters

Radar Systems

Cybersecurity
Transformative Technologies

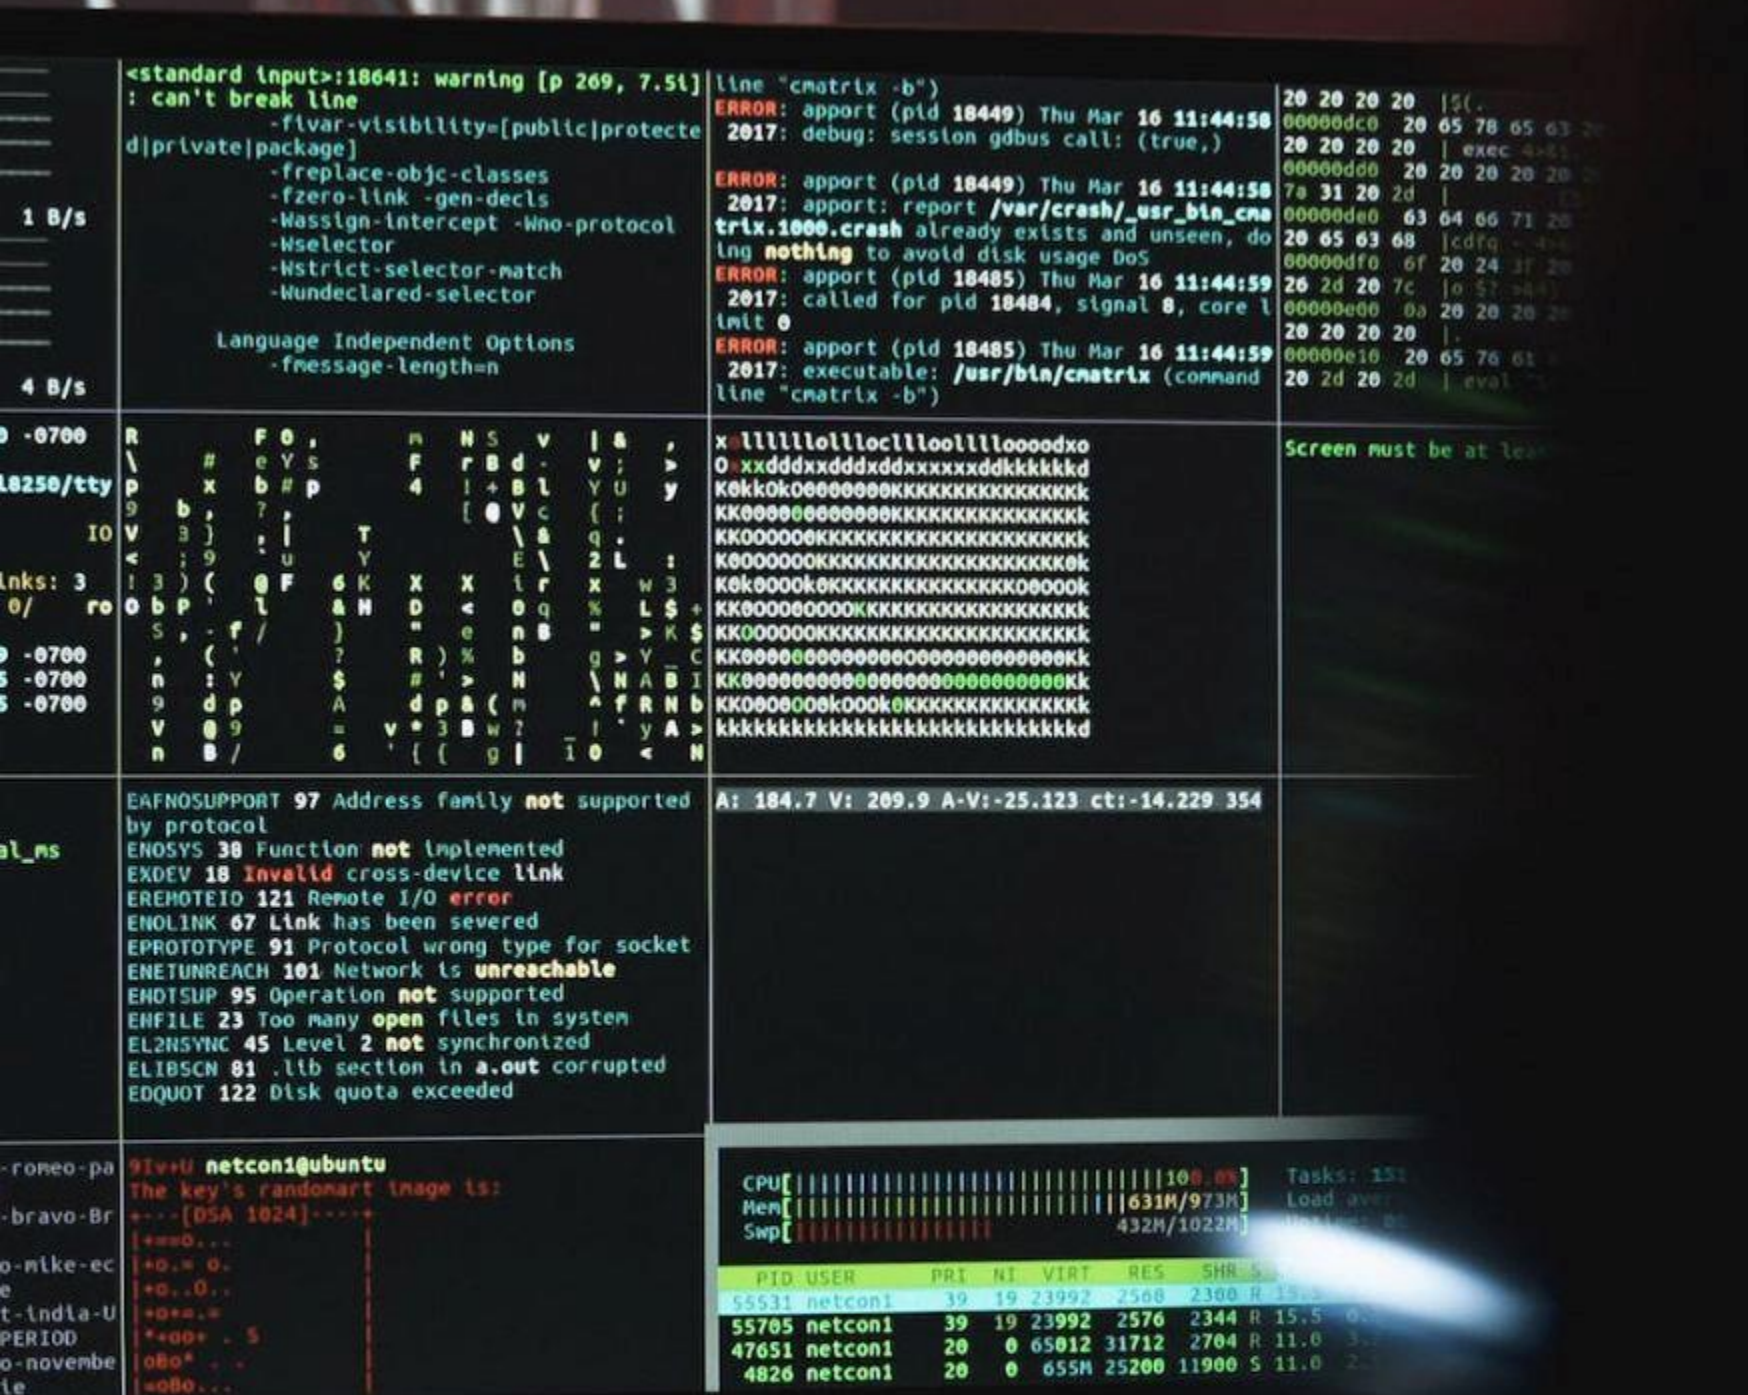

We implement proactive intelligence tools in cybersecurity systems integrated with artificial intelligence to protect:

Provide advanced technologies and innovative approaches to improve medical diagnosis and treatment services, as well as disease prevention and wellness promotion.

PAICO
PAI CONSULTANT INC

Specialized Supplies

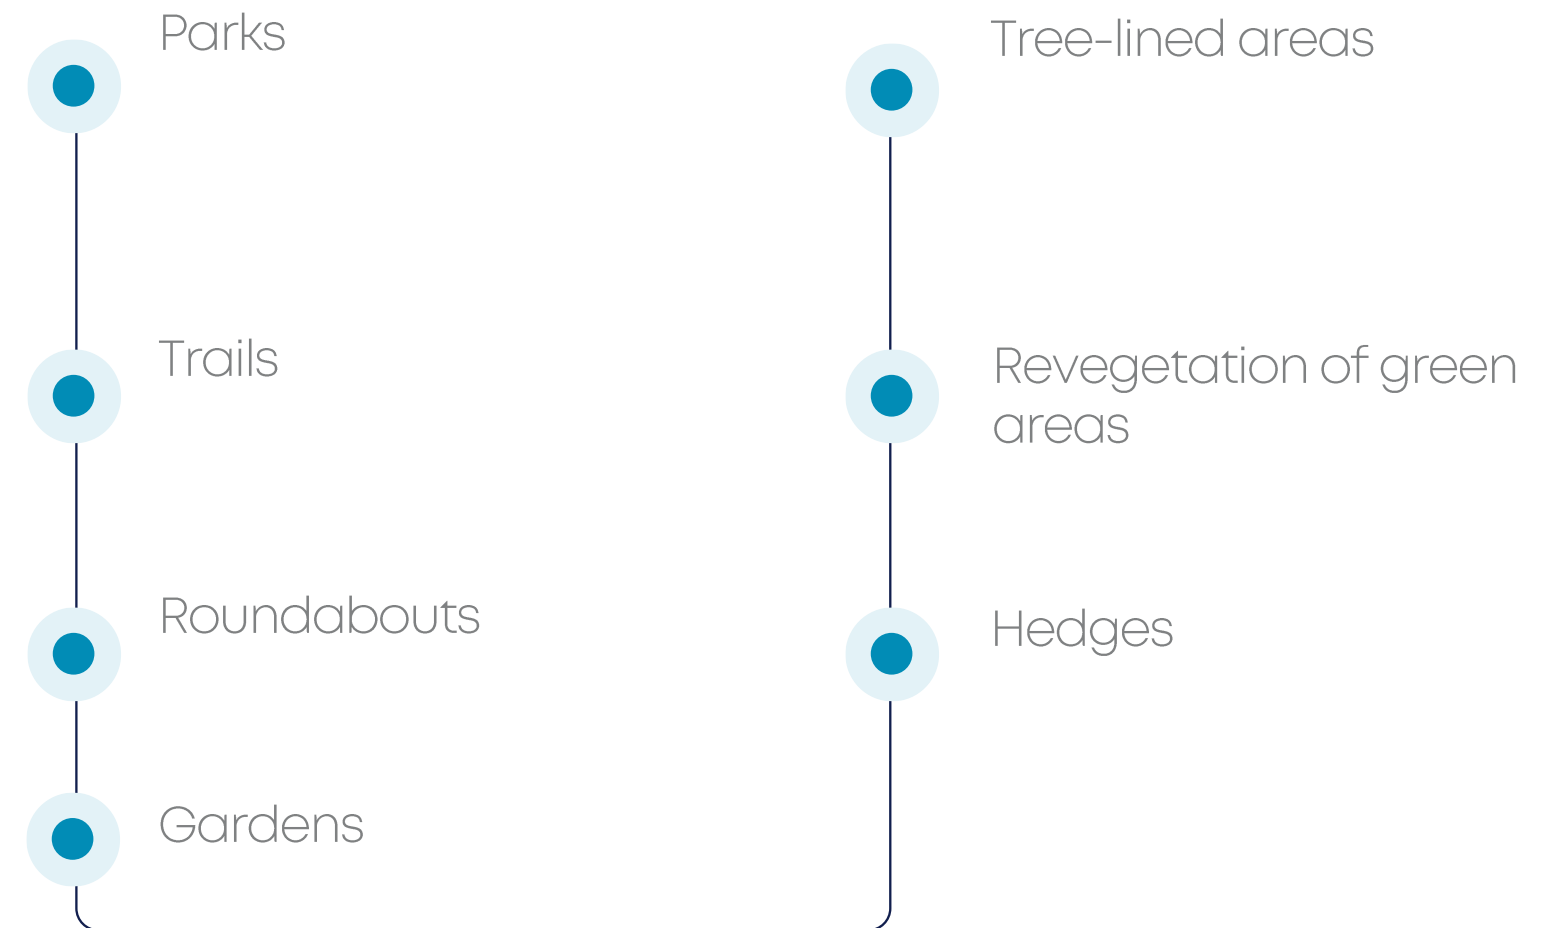

We supply emergency response vehicles tailored to specific needs, as well as specialized equipment and uniforms to address crisis events.

- Urban, industrial, and forest firefighting vehicles
- Personal protective equipment for firefighters
- Basic and/or fully equipped ambulances

Public green areas

Architecturally design the ornamentation of green areas in public spaces, intervene with maintenance programs, beautification, and revitalization.
