Conocer más

### Public Safety Systems

We develop, implement, and operate security support systems, using cutting-edge technology to prevent risks and ensure personal identification through advanced recognition and analytics software.

### Public Wi-Fi Management

We offer a comprehensive Public Wi-Fi Management solution designed for urban environments, public spaces, hotels, airports, and commercial areas.

### Next-Gen 911 Calls

We provide and integrate the leading web platform in the US market, enabling real-time.

### Payment Gateways

We offer secure and efficient Payment Gateway solutions to facilitate online financial transactions.

### Access Control Systems

We offer security systems featuring devices that restrict personnel and user access to unauthorized areas. Additionally, they control the entry and exit of passengers, baggage, and vehicles at air and ground terminals.

### Cybersecurity Management

Our Cybersecurity solution offers comprehensive protection against digital threats for organizations of all sizes.

## Next-Gen 911 Calls

We provide and integrate the leading web platform in the US market, enabling real-time.

[Conocer más](#)

### Live Video

Access the citizen's camera (with consent) for live visibility of the emergency scene.

### Send & Receive Photos

Ability to send and receive images of the emergency scene, stored in the incident log for post-call analysis.

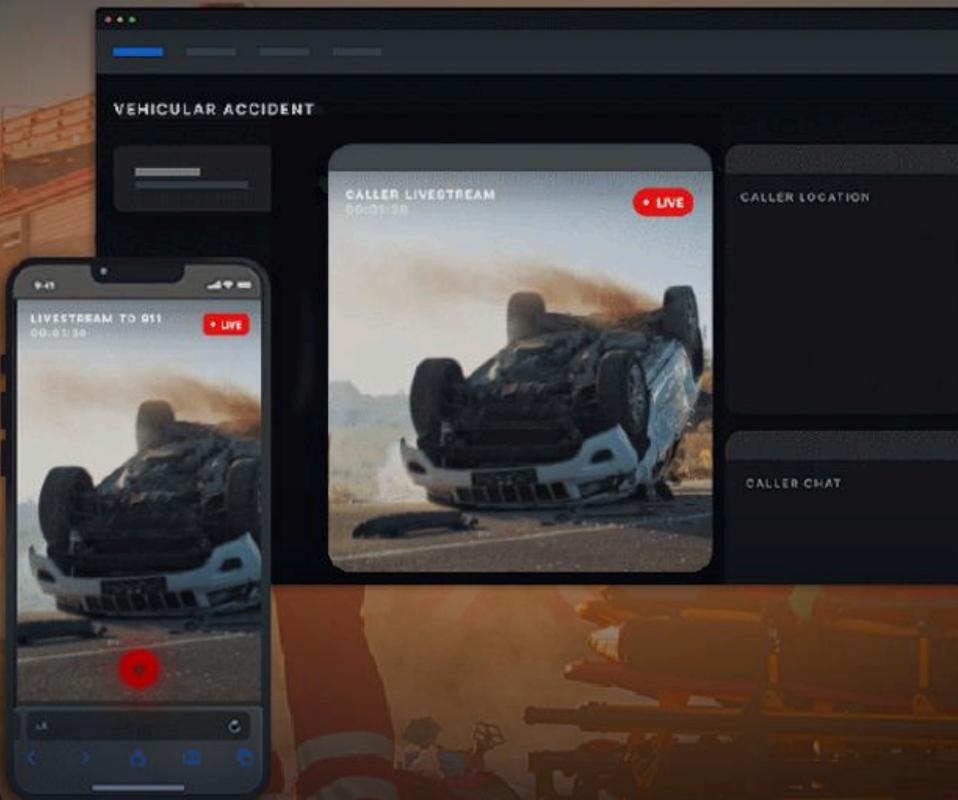

### Instant Messages

Chat with emergency agents, featuring real-time translation into over 140 languages.

### Location Tracking

Ability to track the caller's location throughout the emergency, enabling dispatchers to pinpoint the exact location of the incident.

# Next-Gen 911 Calls

Currently operating in over 600 911 centers across 48 US states.

[Conocer más](#)

It handles approximately 250 million calls per year.

Protecting over 75 million citizens.

The technological infrastructure to provide these services is already available, leveraging existing smartphones.

The tool integrates Police, Medical Emergencies, and Fire Departments, among others.

Includes discrete features for domestic violence or kidnapping emergencies, such as live video streaming and GPS tracking while the device screen remains appear off.

## Cybersecurity Management

[Conocer más](#)

Our Cybersecurity solution provides comprehensive protection against digital threats for organizations of all sizes. We utilize a multi-layered approach that includes advanced firewalls, intrusion detection and prevention (IDPS), data encryption, vulnerability assessments, identity and access management (IAM), and continuous monitoring to detect and respond to threats in real time. We ensure the integrity, confidentiality, and availability of our clients' digital assets, mitigating risks and protecting against cyberattacks.
